Profile

Quantitative researcher and data scientist, graduated from ENSAE Paris, with 16 months at BNP Paribas CIB building machine-learning models for trading-desk risk monitoring and NLP analysis of trader communications. Past year: built GenAI systems covering RAG/GraphRAG, multi-agent orchestration, MCP and LLM evals (annamosaki.com).

Experience

BNP Paribas CIB — Paris, France

- *Quantitative Researcher – Data Scientist* — *Oct 2024 – Sep 2025*
  - Research and production of ML/DL time-series anomaly-detection models with streaming inference across product families.
  - Collaborated with traders to source data and iterate on the product; NLP analysis of trader communications for market-conduct surveillance; two-week training in the London office.
  - Selected for the BNP Paribas CIB Graduate Programme in Quantitative Research.
- *Quantitative Researcher – Data Scientist, Summer Intern* — *Jun 2024 – Sep 2024*
  - Built and benchmarked deep-learning time-series anomaly-detection models on trading data.

Les Associations Mutuelles Le Conservateur — Paris, France

ALM Modeling Intern — *Jun 2023 – Aug 2023*

- Modeled portfolio Vega sensitivities in VBA; automated recurring financial simulations for the investment team.

Education

ENSAE Paris – Institut Polytechnique de Paris — France

Engineer's Degree (Diplôme d'Ingénieur) – Master's Degree, Finance and Data Science — *2023 – 2025*

Coursework: Stochastic Calculus, Time Series, Advanced Machine Learning, ML for NLP, ML for Finance, Derivatives Pricing & Hedging, Risk Management, Green Finance, Banking Law.

Université Paris-Saclay — France

Bachelor's Degree in Mathematics and Economics (Double Degree) – Graduated with Honors — *2020 – 2023*

École Polytechnique Fédérale de Lausanne (EPFL) — Switzerland

Undergraduate studies in Mathematics — *2018 – 2020*

Selected Projects & GenAI Training

- **LLM Foundations:** 12-level GenAI system — prompts → GraphRAG → evals, agents, MCP (Python, pydantic-ai).
- **Agent Desk:** multi-agent investment desk (research/macro/quant/risk/scribe) with FastA2A, HITL gates and dual MCP.
- **Research Digest:** ArXiv + fund/quant RSS desk for time-series × finance research.

Skills

Technical: Python (pandas, scikit-learn, TensorFlow, PyTorch, NLP), machine learning, RAG/GraphRAG, LLM agents (pydantic-ai, MCP, A2A), FastAPI, Next.js, Cursor, Claude Code, SQL, VBA, C++, R

Languages: French (native) · Russian (native) · Kurdish (native) · English (fluent) · Portuguese (advanced) · Spanish (advanced) · German (limited)

Leadership & Awards

- **1st place – GenAI Hackathon** (AWS × Sia Partners × Mistral × Gide): RAG system for legal-document drafting.
- **1st place – H-W3B Hackathon** (Sia Partners × Tezos): blockchain-secured digital passport for vehicles.
- **Best End-of-Studies Finance Internship Prize** (ENSAE Paris): awarded for the BNP Paribas CIB quantitative research internship.
- **Forum ENSAE, Communication Manager** (Sep 2023 – Mar 2024): conferences with executives from Citadel, Société Générale, Crédit Agricole and INSEE.
- **Georgian Caucasian Dance** (10 years): competition dancer; diploma as official trainer.
